customer service

Gamma Mobile

The business-only mobile network with first class customer service

Gamma Mobile is a mobile service built exclusively for the UK business market, designed to ensure you get improved coverage for voice and data.

With Gamma Mobile your device will empower, not hinder your ability to conduct business.

We have travel bolt-ons that are as flexible as your schedule, a fixed/mobile convergence roadmap that prepares your business for the future and you'll get a network provider with a focus on customer service excellence.

What makes us different?

- ▶ We own the core systems within the mobile network:
 - we have all the control so you have all the flexibility
 - easier to manage your mobiles
 - make adds/changes more quickly
- ▶ Coverage:
 - access to the biggest data network in the UK
 - access to more than one network from a single SIM giving improved coverage for voice and data
- ▶ Built for business:
 - 4G as standard
 - business-centric voicemail
 - great range of features designed specifically for business
- ▶ A focus on customer service:
 - the same service excellence we already deliver for our other telecom services
- ▶ Fixed/mobile convergence roadmap prepares your business for the future

Mobile for business

Because we only cater for the business market we understand the challenges you face and we're committed to delivering solutions, tariffs and support that help you focus on your business. We also understand that we need to deliver these solutions on the back of an extensive and reliable network, which is why we've built our own.

We're already one of the UK's largest providers of fixed voice services and applications for thousands of UK businesses, and you can rest assured we have applied the same expertise and experience into making our mobile network and support services business-class and to the highest reliability also.

Coverage

Being contactable and able to work as normal when you are mobile is key to doing business well, so having the best business mobile network possible is paramount.

With access to the biggest data network available for business in the UK, working on the move won't be a problem. And wherever you are in the UK, Gamma Mobile's MultiNet bolt-on enables the SIM to look for another available mobile network should the primary network not be available. So, you won't need multiple provider contracts and while your competitors are out of signal and their calls are going through to voicemail, you keep working - making your business more accessible.

Focus on customer service

Gamma is committed to excellence in customer service and support - it's what makes us stand out from our competitors. So with Gamma Mobile you get the same first class service we already deliver for our other telecom services. Our UK support teams are co-located so you can always get through to the right person to handle your query, and our teams are experts in both fault resolution and provisioning.

Flexible tariffs

We offer a range of mobile tariffs including bundled minutes packages or simple pay-as-you-use, single user, shared user and unlimited, as well as a selection of bolt-ons including text, data, international roaming and our unique MultiNet service. Alternatively, we can work with you to find a bespoke package that suits your needs.

Fixed/mobile convergence roadmap

As both a fixed-line and mobile network operator we can offer highly competitive on-net rates and are in an ideal position to make fixed/mobile convergence an affordable reality for your business.

Flexible working

Gamma Mobile lets you access everything you need to keep working no matter where you are. Our services support access to email, calendar and tasks on the move as well as the internet and your company LAN.

Business continuity

Unexpected events such as snow, floods, strike or roadworks needn't disrupt business. Gamma Mobile can easily integrate with your fixed-line infrastructure to become the key form of communication in such an event.

Business Travel

Gamma Mobile can help you control your expenditure when travelling overseas. We have a range of Business Traveller bolt-ons to suit your schedule, reducing the risk of bill shock and unexpected data charges.

Professional voicemail service

Our reliable, flexible business voicemail platform is a cut above the standard residential voicemail that comes with other networks. Features include extended messages and storage, and flexible and tailored greeting options.
